

Blending and Logistics

Locations

Lab Capabilities

- Solids analysis
- Scale bottle testing
- Corrosion testing
LPR bubble cell
- Corrosion testing
coupon testing
- Emulsion break testing
- Product stability testing

- Forced iron precipitation
- HPLC
- ICP
- FTIR
- FR Loop testing
- ATP testing

Logistics & Blending Capabilities

Logistics

- Extensive ISO fleet to provide last mile delivery service
- Tanks trucks dedicated to Hydrogen Peroxide deliveries
- Efficient raw material supply chain with dedicated rail spur

Blending

- Provides custom toll blending at our state-of-the-art facilities utilizing micro-motion technology and on-site QA/QC
- Capability to package into bulk tankers or totes
- Custom labeling and SDS options available
